PROFILE

Computer Science and Engineering graduate with hands-on experience in JavaScript, Java, and full-stack web development. Experienced in building backend systems, REST APIs, and scalable applications using Node.js, Express.js, React.js, and MongoDB. Familiar with Docker, AWS, Git, and modern software development practices. Comfortable working in Linux/macOS environments and solving engineering problems through a strong foundation in Data Structures, Algorithms, and system design fundamentals.

SKILLS

Programming Languages: Java, JavaScript, TypeScript, Python, SQL

Backend: Node.js, Express.js, REST APIs, JWT/RBAC

Frontend: HTML, CSS, Tailwind CSS, Bootstrap, React.js

Databases & DevOps: MongoDB, MySQL, Docker, Git/GitHub, Postman, AWS (EC2, S3)

PROFESSIONAL EXPERIENCE

Lighthouse Info Systems Pvt Ltd, *Software Engineer Intern*

May 2025 – July 2025 | Nagpur, India

- Developed **backend modules** for **product management, cart operations, and order processing** using **Node.js, Express.js, and MongoDB**.
- Implemented secure **JWT-based authentication and authorization** while designing **REST APIs** and optimized database schemas for scalable application workflows.
- Engineered **order lifecycle management** with validation, error handling, and reliable API integration for consistent backend functionality.
- Technologies:** Node.js, Express.js, MongoDB, Mongoose, JWT, REST APIs, Postman

PROJECTS

Real Time Collaborative Editor 

- Implemented **realtime collaborative editing** with Monaco Editor using **Yjs CRDT synchronization** and **Socket.io**, enabling **15+ concurrent users** to edit shared documents simultaneously.
- Built **room-based collaboration** and **active user presence tracking** using React Router, WebSockets, and dynamic room codes validated through multi-user testing.
- Containerized the application using **Docker** and deployed scalable services on **AWS ECS**, enabling cross-device realtime collaboration and production-ready deployment workflow.
- Technologies:** React.js, Node.js, Express.js, Socket.io, Yjs, Monaco Editor, Tailwind CSS, Docker, AWS ECS

Hacker News Scraper 

- Built a full-stack Hacker News scraper using the MERN stack, scraping and storing **100+ stories from Y Combinator's Hacker News** using **Axios** and **Cheerio**.
- Implemented JWT authentication, protected REST APIs across **6+ endpoints**, and **React Context API** for authentication state management.
- Developed a bookmark system with optimized frontend-backend integration and **sub-200ms local API** response times tested via Postman.
- Technologies:** Node.js, Express.js, React.js, MongoDB, JWT, Cheerio, Axios, REST APIs

EDUCATION

B.Tech. in Computer Science and Engineering,

2022 – 2026 | Bharatpur, India

Government Engineering College Bharatpur, CGPA: 8.64

Relevant Coursework: Data Structures & Algorithms, Database Management Systems (DBMS), Computer Networks, Operating Systems, Object-Oriented Design, Software Development Life Cycle (SDLC).

ACHIEVEMENTS AND ACTIVITIES

- Competitive Programming:** Solved 500+ problems across LeetCode, CodeChef, and GFG; LeetCode peak rating 1637.
- Coordinator, Python Programming Club:** Organized coding workshops and sessions for 50+ students at GEC Bharatpur.
